Postal Regulatory Commission  
Submitted 8/16/2022 10:02:41 PM  
Filing ID: 122519  
Accepted 8/17/2022

August 16, 2022

Postal Regulatory Commission,

This is an addendum to the attached letter that was sent to the PRC on 06/30/2022. The Addendum input was unable to be made by the *July 31<sup>st</sup>, 2022 request for Stakeholder Input* because it was published on August 11, 2022.

Below is another example of a USPS rate change where there is NO "FINAL" DOCUMENTATION or PRICING:

The PRC will review the proposed prices before they are scheduled to take effect Oct. 2. Complete USPS price filings, with prices for all products, can be found on the PRC website's Daily Listings section at [prc.gov/dockets/daily](https://prc.gov/dockets/daily). Price change tables are also available on the Postal Service's Postal Explorer website at [pe.usps.com/PriceChange/Index](https://pe.usps.com/PriceChange/Index).

These changes as of 08/11/2022, LESS THAN 60-DAYS from the 10/02/2022 required implementation date is unacceptable and unsustainable. This erodes customer confidence with the numerous issues related to not having FINAL Price Files, SKU Price and Postage Statements, AND any possible impact on presorts or labeling lists.

The USPS knows of these changes earlier in the year. They know that there are many changes coming and most likely have this information internally. Why they only allow industry less than 60-days to implement, regressive test, release to industry, for industry to install and test and then move into production makes no sense. We are requesting action on this. We don't mind the changes. What is critical is that we are allowed ample time. 60-days to have FINAL Price Files, SKU Price and Postage Statements, AND any possible impact on presorts or labeling lists is the minimum that vendors are requesting.

## Time Limited Price Change

Starting October 2, 2022 Through January 21, 2023
